BILLING CODE 4160-90-P

Public Meeting on a Model Survey for Monitoring Consumers' Access to Care, Use of Services, Health Outcomes, and Patient Satisfaction

AGENCY: Agency for Health Care Policy and Research, HHS.

ACTION: Notice of public meeting.

SUMMARY: A meeting is being held to discuss the results of AHCPR's project to design a survey to monitor consumers' access to care, use of services, health outcomes, and patient satisfaction.

DATES: The meeting, open to the public, will be on Friday, March 10, 1995, from 9:00 a.m. to 12:00 p.m.

ADDRESSES: The meeting will be at the Four Seasons Hotel, Dumbarton Room, 2800 Pennsylvania Avenue, N.W., Washington, D.C. 20007.

SUPPLEMENTARY INFORMATION:

I. Purpose

The purpose of this meeting is to present and discuss the results of the Agency for Health Care Policy and Research (AHCPR) project, "Design of a Survey to Monitor Consumers' Access to Care, Use of Services, Health Outcomes, and Patient Satisfaction". This project, carried out under contract with the Research Triangle Institute of Research Triangle Park, NC, developed information on consumers' perceptions and ratings of their health care plans for use in choosing health plans.

II. Agenda

The meeting will begin at 9 a.m. on Friday, March 10, 1995, and provide an overview of the purpose and scope of the project. A presentation of the model survey instrument that resulted from the project will follow; and a question and comment period will conclude the session with adjournment at 12 p.m.

III. Arrangements for the March 10, 1995 Meeting

Individuals and representatives of organizations who would like to attend the meeting must register by February 21 with Moshman Associates, Inc., the contractor providing administrative support to AHCPR for the meeting. Registration information and a draft agenda may be obtained by writing to Moshman Associates, Inc., Attention: Technical Conference Division, Suite 410, North Tower, 7315 Wisconsin Avenue, Bethesda, MD 20814. Requests for registration materials may also be submitted by facsimile transmission at 301-961-553, Attention: Technical Conference Division. Facsimile cover sheets should include a sender's name, organization, address, telephone and facsimile numbers.

If sign language interpretation or other reasonable accommodation for a disability is needed, please contact Linda Reeves, the Assistant Administrator for Equal Opportunity, AHCPR, on (301) 594-6666, no later than February 21, 1995.

Additional information on the meeting can be obtained by contacting Sandra K. Robinson, Project Officer, Office of Program Development, Agency for Health Care Policy and Research, at the following address: Sandra K. Robinson, Project Officer, Agency for Health Care Policy and Research, 2101 East Jefferson Street, Suite 603, Rockville, Maryland 20852, Phone: 301-594-1455, FAX: 301-594-2157.

Dated: January 30, 1995.

Clifton R. Gaus,
Administrator.

BILLING CODE 4163-18-M

Food and Drug Administration

[Docket No. 93S-0220]

Extension of Electronic Docket for Medical Device/Radiological Health Policy Statements and Operating Procedure Guides and Cessation of Public Docket

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has decided to extend an electronic docket that was established over 1 year ago to enhance public access to policy speeches and statements, standard operating procedure guides, and other types of documents related to product evaluation and regulatory enforcement for its medical device and radiological health programs. The agency has also decided to cease maintaining a public "hard copy" docket, which was established concurrently with and contains the same information as the electronic docket. Both dockets have been operating on a 1-year pilot basis.

DATES: Continuation of the electronic docket will extend for an indefinite

period of time. Written comments and suggestions regarding operation of the electronic docket are acceptable at any time. Cessation of the public docket is effective immediately.

ADDRESSES: Submit written comments on the management of the electronic docket to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: John F. Stigi, Center for Devices and Radiological Health (HFZ-220), Food and Drug Administration, 1350 Piccard Dr., Rockville, MD 20850, 301-443-6597.

SUPPLEMENTARY INFORMATION:

Throughout its existence, the Center for Devices and Radiological Health (CDRH) has employed a number of outlets to communicate with regulated industry, the medical community, and interested consumers about its policies and operations. Although these modes of communication were generally regarded as effective, many persons expressed the desire for even broader access to CDRH-generated information to better assist them in complying with FDA regulatory requirements. In response, CDRH created two dockets to serve as readily accessible repositories of current and important materials. FDA announced the establishment of both dockets in the **Federal Register** of July 27, 1993 (58 FR 40150), and stated there would be a 1-year trial period for both information retrieval systems.

One docket, from which documents in "hard copy" form can be acquired, has been located at the Dockets Management Branch (address above). Interested persons were required to physically visit this facility in order to access the information.

CDRH also established an electronic docket as a means to further increase industry access to policy documents. This menu-driven system allows interested persons to access, read, print, and download documents using personal computers at their places of business.

Throughout the pilot year, CDRH has monitored the number of inquiries received through each of the two dockets. Approximately 100 document requests were made through the public ("hard copy") docket. In contrast, more than 17,000 inquiries were received through the electronic docket, and the number of system accesses continues to increase. During the period August through September 1994, slightly more than 5,800 requests were made. In addition to these utilization statistics, CDRH has taken note of articles,

editorials in trade publications, and correspondence that have commented favorably about the usefulness of the electronic docket in particular.

In view of the positive feedback on the electronic docket, as reflected by the comparatively large volume of inquiries, the agency believes there is sufficient justification for maintaining this public service. Persons interested in availing themselves of this information access system must have a video terminal or personal computer with communications software (VT emulation) and a modem that can operate at a baud rate of 1200, 2400, 4800, or 9600. For those persons who wish to transfer files from the electronic docket, the KERMIT file transfer protocol must be used. The telephone number to access the system is 1-800-252-1366 or 301-594-2741.

From the experience gained in operating the electronic docket, CDRH is contemplating a number of refinements to improve its information delivery capability, as well as the scope of material available for public access. These will include, for example, announcements of upcoming meetings of the agency's various medical device advisory panels. As other enhancements to the system are introduced, CDRH will inform potential users through CDRH newsletters, trade publications, public speeches, and other communication vehicles.

Effective immediately, FDA is terminating the public docket pilot program. Because of the marginal utilization of the public docket, CDRH believes that the administrative costs associated with its operation are no longer justified.

The actions announced in this notice do not affect the status of two other information access systems referred to in the **Federal Register** notice of July 7, 1993: (1) The CDRH "Flash FAX" system, from which virtually all documents formerly offered in the public docket are presently or shortly will be available; and (2) the premarket notification (510(k)) submission status reporting system.

To receive information or assistance regarding any of the systems described in this notice, contact the CDRH Division of Small Manufacturers Assistance at 1-800-638-2041 or 301-443-6597, or by FAX at 301-443-8818, or write to the contact person above.

Dated: January 13, 1995.

D.B. Burlington,

Director, Center for Devices and Radiological Health.
